A NATION POLLUTED WITH BLOOD

**Psalms 106:38 (NKJV)**

<sup>38</sup> And shed innocent blood, The blood of  
their sons and daughters, Whom they  
sacrificed to the idols of Canaan; And the  
land was polluted with blood.

## **Roe Vs Wade –**

January 22, 1973

The alias "Jane Roe" was used for Norma McCorvey, on whose behalf the suit was originally filed, alleging that the abortion law in Texas violated her constitutional rights and the rights of other women.. The defendant was the district attorney of Dallas County, Texas, Henry B. Wade.

# Abortion & The Law

## **Roe Vs Wade –**

January 22, 1973

The Court's decision in this case was that the Ninth Amendment, in stating that "the enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people," protected a person's right to privacy.

# Abortion & The Law

- ✦ The Supreme Court ruled that women, in consultation with their physician, have a constitutionally protected right to have an abortion in the early stages of pregnancy – that is, before viability – free from government interference.
- ✦ In 1992, the Court reaffirmed the right to abortion in *Planned Parenthood v. Casey*. However, the ruling significantly weakened the legal protections previously afforded women and physicians by giving states the right to enact restrictions that do not create an “undue burden” for women seeking abortion.

# Abortion & The Law

- ✦ Thirty-five states currently enforce parental consent or notification laws for minors seeking an abortion.
- ✦ Congress has barred the use of federal Medicaid funds to pay for abortions, except when the woman's life would be endangered by a full-term pregnancy or in cases of rape or incest.
- ✦ Seventeen states use public funds to pay for abortions for some poor women, but only four do so voluntarily; the rest do so under a court order.[20] About 13% of all abortions in the United States are paid for with public funds[21] (virtually all from state governments).[22]

# Abortion & The Law

- ✦ 20 states have laws that could be used to restrict the legal status of abortion.
- ✦ 4 states have laws that automatically ban abortion if Roe were to be overturned.
- ✦ 13 states retain their unenforced, pre-Roe abortion bans.
- ✦ 7 states have laws that express their intent to restrict the right to legal abortion to the maximum extent permitted by the U.S. Supreme Court in the absence of Roe.

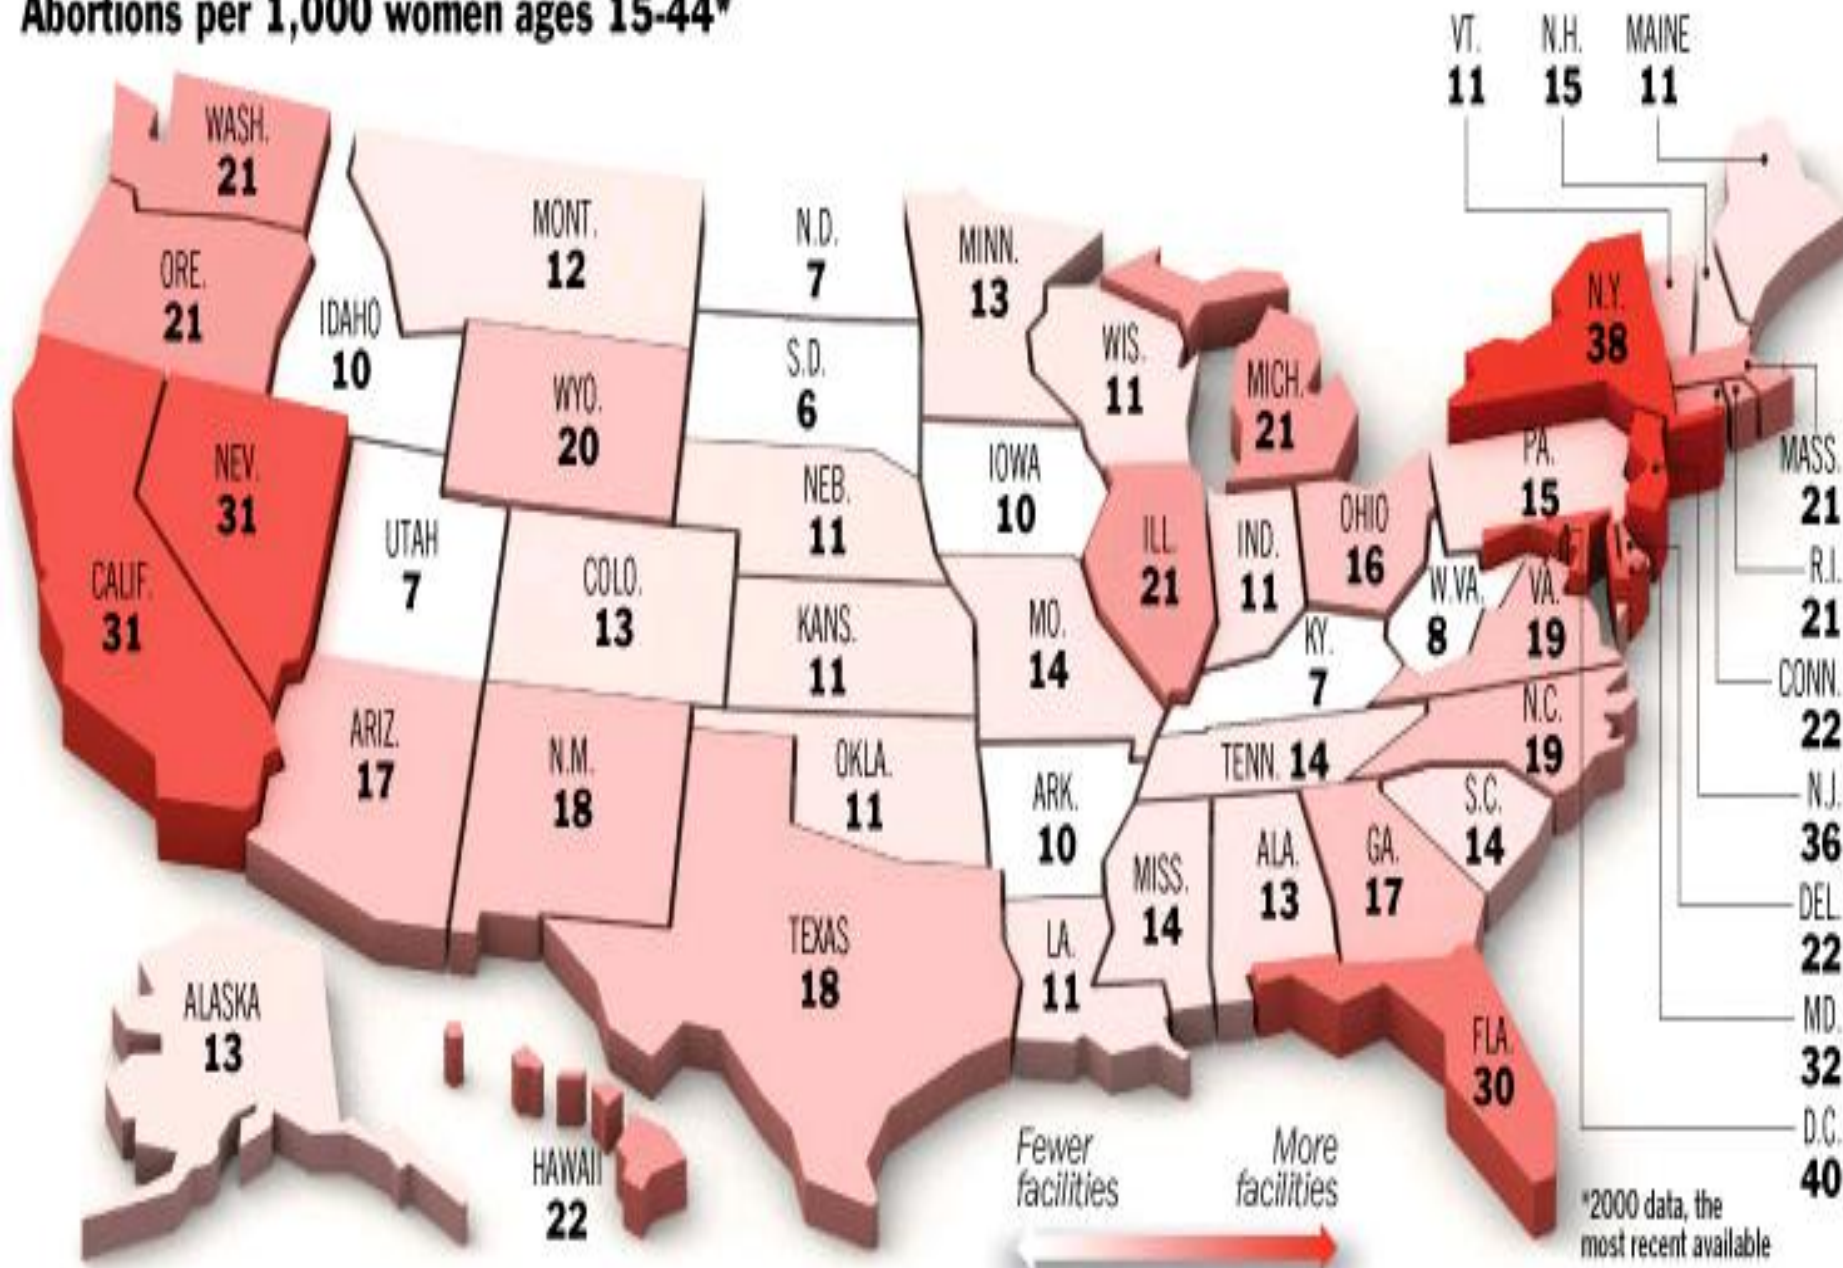

Abortion is one of the **most common** medically performed **procedures** in the U.S..  
There are approximately **1.3 million** abortions performed every year in the U.S.

“The Evan B. Donaldson Adoption Institute tells us that the number of infants available for private adoption in the United States has been decreasing. The factors which have contributed to this change are, "increased access to contraception", "changed social attitudes about unmarried parenting", and the big one, "the legalization of abortion."

"Between 1989 and 1995, 1.7 percent of children born to never-married white women were placed for adoption, compared to 19.3 percent before 1973." In 1970 there were 89,200 new adoptive parents. In 1975, the last year for which such data is available, that number was cut almost in half to 47,700. The reason for the decline was due to the fact that "fewer U.S.-born white infants were available for adoption."
